

FEED WEIGHER

Product code: 450-00080

It's all about accuracy when it comes to scales. The **Zaxe** feed weighing system is designed for accurate continuous or batch weighing.

When you need a precise amount of feed delivered, don't think of anything else but the **Zaxe** Feed Weigher!

Our system is equipped with fixed supports and load cells, for a maximum batch capacity of **400 lbs** at a time. Can be in continuous or batch feeding modes.

- Maintains genetic standards for optimal production.
- Reduces feed loss.
- Decreases maintenance costs / Less wear.
- Highest total capacity in the industry.
- Made of high grade stainless steel for extreme environmental resistance and longevity.

- Accuracy
- High quality actuators
- Scale designed entirely in stainless steel
- Plastic cover
- 3-year warranty
- Tolerate extreme weather conditions
