# LED FEED SENSOR

Product code: 105-00025

The **Zaxe LED** Feed Sensor is a unique sensor that combines a **30mm** feed sensor with an integrated **LED** light.

Compared to conventional lighting solutions, the Zaxe **LED** Feed Sensor is discreet, intuitive and very easy to install. It can also be used to upgrade existing feed systems with an integrated lighting solution.

This product is intended for feed pans in poultry production. The light's purpose is to get the birds' attention to ensure stable feeding.

- LED pan lighting
- 30 mm feed sensor
- Easy to set up
- 1 year warranty
