

STATIC PRESSURE SENSOR

Product code: 105-00005

The **Zaxe** Static Pressure Sensor is an extremely versatile transmitter for monitoring air pressure and air velocity.

Along with these features, the patented magnetic sensing technology provides exceptional long term performance and makes the Magnesense[®] Differential Pressure Transmitter the single solution for your pressure and flow rate applications.

- Gives you peace of mind in the most difficult environments.

- Extremely versatile transmitter
- Long term performance
- Easy to set up
- 1 year warranty
